

## **Electronic Health Record (EHR) Adoption**

**May 26, 2011**

Dear Phoenix Health Plan (PHP) Providers:

PHP encourages all eligible providers to seriously consider the significant advantages, both financial and improving quality, of adapting EHR.

Health-e Connection and Arizona Regional Extension Center (REC) stand ready to assist you and your practice in the evaluation and implementation process or simply to provide unbiased information. Your professional association is also an excellent place to obtain valuable information on this topic.

Attached are the dates/times and locations of upcoming meetings hosted by REC in your local communities.

Here are some helpful websites for further information:

Arizona REC's Website <http://www.azhec.org/regionalextensioncenter.jsp>  
AHCCCS HIT Webpage <http://www.azahcccs.gov/HIT/>  
CMS EHR Incentive Program <http://www.cms.gov/EHRIncentivePrograms/>  
Office of National Coordinator for HIT
