

Non-Emergent Medical Transportation Services

June 1, 2011

Effective for dates of service on and after **July 1, 2011**, Phoenix Health Plan (PHP) will be changing our vendor for non-emergency transportation services to a single statewide vendor.

MTBA will be the sole non –emergency transportation provider statewide for PHP.

WHAT DOES THIS MEAN TO YOU?

Effective **July 1, 2011** PHP requires that you utilize **only** MTBA for all non-emergency transportation services for our members.

Please be aware that the change will have no impact on our process for arranging non-emergency transportation services for our members.

If you have any transportation service questions please contact Network Management at (602) 824-3720 or (800) 747-7997.

Thank you in advance for your cooperation to assist in keeping the AHCCCS program viable.
