

Computed Tomography (CT)

June 1, 2010

Dear Phoenix Health Plan (PHP) and Abrazo Advantage Health Plan (AAHP) Providers,

In addition to the current requirement to obtain a prior authorization for all MRAs, MRIs, and PET scans, effective July 1, 2010, PHP will also require that providers ordering a CT obtain a prior authorization.

As a reminder, 3D ultrasounds must be medically necessary and require a prior authorization.

If you have any questions, please contact your Provider Relations Representative directly or the department number shown below.

THANK YOU
